

Ever been curious about ham radio and wondered how you could get involved? How about learning to use digital communications, talk through satellites or possibly to the International Space Station? If telephone systems crashed, how would you communicate with family and friends? Have you considered enjoying a hobby which can help your community in times of trouble like tornadoes, floods, or wildfires? Consider joining us for a day of learning and testing for your license.

AMATEUR RADIO CLASS

What: Amateur radio training and testing session for the F.C.C. issued Technician Class license.

Who: Any person interested in getting their F.C.C. Ham Radio license to help their families, their community and to have a lot of fun.

When: Saturday, June 16, 2018 at 8:00 AM – 5:00 PM
(testing to begin after the class)

Where: PACARC Clubhouse, corner of Caplin & Easy Streets, Palestine, TX

Cost: The class is FREE, the test is \$15 (please submit a \$15 deposit which will be applied to the cost of your test)

Materials: Those attending can download a FREE No-Nonsense **Technician Class** License Study Guide at <https://www.kb6nu.com/study-guides/>
We recommend reading through the material prior to attending the class.

Practice tests can be taken at <https://www.qrz.com/hamtest/>
